Is it True.

We are assured by responsible citisens of Mason City, that there is a gang of successionists who hold secret meetings in that place every few nights, and that these meetings are attended by some of the same class from this side. The names of those who are certainly known have been furnished to Governor Pierpont and the military authorities, who will have an eye upon the "brotherhood" in future. We should repel the charge that any residents of Pomeroy were engaged in these mid-night conspiracies, as a slander upon our town, did not the character of our formant make it folly to doubt. Are the "Moscasin Rangers" to be piloted into Pomeroy, as they were into Newburg? We say to the citizens, be prepared for say amergency! I have cuted many invelerate enses of Leucorrhea by it, and some where the complaint was caused by ulcerations of the aterus. The ulceration fiscil was seen cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Alas, writes, "A dangrous oversom temor on one of the Semales in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician though nothing but arritration could afford relief, but he advised the trial of your Sarsaparilla as the last recort before cutting, and it proved effectual. After taking your remedy cited weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Outcass, 26th August, 1860.

Dn. J. C. Aven: Sir, I cheerfully comply with the re-quest of your agent, and report to you come of the effects I have realised with your Sarsaparilla.

I have cured with it, in my practice, most of the com-plaints for which it is recommended, and have found its effects truly wonderful in the cure of Forerest and Her-cured Discuss. One of my patients had Syphiltic ulcore in his throat, which were consuming his palets and the top of his mouth. Your Sarsaparilla, steadily taken, cared him in five weeks. Another was attacked by sec-ondary symptoms in his ness, and the ulceration had eaten away a considerable part of it, so that I bulieve the disorder would some reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the

theumatism, Gout, Liver Complaint. Innavisuance, Preston Co., Va., 6th July, 1889.

In. J. C. Arm: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which buffled the skill of physicians, and stack to me in epite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was astacked. I think it a wonderful medicine. J. FREAM.

A great variety of cases have been reported to us where cares of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our America Almance, which the agents below named are pleased to farmish gratis to all who call for them. Dyspensia, Heart Disease, Fits, Epilepay, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the afterative power of this medicine. It stimulates the vital functions into vigorous action, and thus rescuence disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral. FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Comsumption, and for the Relief of Consumptive Patients in advanced Stages

Of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the eridence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the carth. Few are the communities, or even families, among them who have not some personal experience of its effects—seme living trophy in their midst of its victory over the subile and dangerous disorders of the throat and lungs. As all know the dreatful stality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
